March 25, 2021

Parents/Guardians:

In planning for the 2021-2022 school year, Grant Parish School Board is finalizing plans to transition students in 6th grade to the junior high setting beginning in August. Next school year's sixth grade students attending Pollock Elementary, South Grant Elementary, Colfax Elementary, and Verda Elementary may be enrolled in either Grant Junior High or Montgomery High School depending upon school zones. Factors considered in planning include curriculum alignment for middle school, athletics, and utilizing building capacity at all school sites.

More information will be forthcoming as we consider all aspects of this move, which also includes your feedback. Grant Parish School Board and our school teams will work together to support our students and families in this proposed transition to the middle school setting for the next school year.

We are committed to serving our students and community by providing a quality education for all students. Your comments and feedback are vital in the planning process. Please send comments and questions regarding this transition to parents@gpsb.org or call the Grant Parish School Board.

Thank you,

Paxton Teddlie
Superintendent
Grant Parish School Board
